

KNA800 Series

Product Images

Summary

Features and benefits

- Tool Material: UMG carbide
- Helix angle: 45°
- Carbide Rod: GU092
- Tolerance: Dia. ± 0.015 Dia. ± 0.02
- Special cutting edge designed according to the condition of moldworking industry , suitable for high-speed machining
- Recommended workpiece: HRC ≤ 60 , hardened steel/tool steel etc. SKD11, SKD61, 718H, S316, NAK80, Cr12MoV, 2316..
